Profile Summary

Aspiring Full-Stack Developer specializing in the MERN stack, with practical experience building complete web applications from frontend UI to backend APIs and payment systems. Strong understanding of authentication, authorization, and database design, with a focus on writing clean and maintainable code. Quick learner with strong problem-solving abilities and communication skills, eager to contribute to a collaborative development team.

Education

Air University, Islamabad | 2023 – 2027 Bachelor of Science in Computer Science | CGPA: 3.0 / 4.00

- Relevant Coursework: Software Engineering, Data Structures and Algorithms, Web Development, Artificial Intelligence, App Development
-

Projects

Library Management System

Technologies: NeonDB, Express.js, React.js, Node.js

- Built a full-stack library management system with features for managing books, users, and book issuing/returning.
- Integrated NeonDB for efficient storage and management of library records, improving scalability and data handling.
- Implemented an admin panel for managing books, users, and transactions, streamlining library operations.
- Developed responsive user interfaces using React.js and RESTful APIs with Express.js and Node.js.

Rental Web Application

Technologies: MongoDB, Express.js, React.js, Node.js, JWT, Stripe

- Designed and developed a scalable full-stack rental platform with vehicle listing, booking system, and secure online payments.

- Developed 15+ secure RESTful APIs covering authentication, vehicle management, and booking workflows.
- Implemented JWT-based Role-Based Access Control (RBAC) for Admin and Customer roles, securing 10+ protected routes.
- Integrated Stripe for real-time payment processing.

Certifications

- WordPress Development – DigiSkills.pk
- Full stack web development by Meta (Coursera)
- Foundation of CYS by google (Coursera)
- Digital marketing course by google (Coursera)

Technical Skills

Languages: JavaScript, Java, Python, C++, C#, Dart

Frontend: React.js, Next.js, Redux

Backend: Node.js, Express.js

Databases: MongoDB, PostgreSQL

Authentication & Security: JWT, Bcrypt

Tools: Git, GitHub, Postman, Figma

Other: REST APIs, Stripe
