

ABDUL MUNIM

AI AUTOMATION & PROMPT ENGINEER | FULL-STACK MERN DEVELOPER | FINAL-YEAR BSCS

+92 317 5031718 | chmunim688@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Final-year BS Computer Science student with hands-on experience in **prompt engineering, AI automation, and full-stack web development**. Built end-to-end MERN applications with REST APIs, JWT/RBAC authentication, MongoDB/PostgreSQL databases, and Stripe payments. Experienced in structured prompt design and AI-assisted workflows for digital marketing and e-commerce use cases. Seeking internship or junior roles in AI Automation, Prompt Engineering, Full-Stack Development, or Software Engineering.

EXPERIENCE

Disruptive Brain Pvt Ltd - Prompt Engineer & AI Automation Intern

Jun 2026 - Present

Bahria Phase 7, Rawalpindi/Islamabad | On-site

- Contribute to AI-powered solutions and prompt-engineering workflows for business, digital marketing, and e-commerce use cases.
- Design and refine structured prompts to improve the relevance, consistency, and usability of AI-generated outputs.
- Support AI-assisted automation of repetitive content and operational workflows, translating business needs into practical prompt-driven processes.

SELECTED PROJECTS

Vehicle Rental Web Application

MERN | JWT | Stripe

- Developed a full-stack rental platform with vehicle listings, booking workflows, authentication, and secure online payments.
- Built 15+ RESTful APIs and implemented JWT-based RBAC for Admin and Customer roles across 10+ protected routes.
- Integrated Stripe for real-time payment processing and connected responsive React interfaces to Express/Node.js services.

Library Management System

React | Node | NeonDB

- Built a full-stack system for managing books, users, issuing/returns, and administrative transactions.
- Developed responsive React interfaces and REST APIs with Express.js/Node.js, using NeonDB/PostgreSQL for persistent data storage.

TECHNICAL SKILLS

AI & Automation: Prompt Engineering, LLM Prompt Design, AI Workflow Design, AI-Assisted Process Automation | **Web Development:** JavaScript, React.js, Next.js, Redux, Node.js, Express.js, REST APIs | **Databases & Security:** MongoDB, PostgreSQL, NeonDB, JWT, RBAC, Bcrypt | **Programming & Tools:** Python, Java, C++, Git, GitHub, Postman, Figma, Stripe | **Additional:** Digital Marketing, E-commerce, WordPress Development

EDUCATION

Air University, Islamabad - Bachelor of Science in Computer Science

2023 - 2027

CGPA: 3.0 / 4.00 | Relevant Coursework: Data Structures & Algorithms, Software Engineering, Artificial Intelligence, Web Development, App Development

CERTIFICATIONS

Meta Full-Stack Web Development - Coursera | Google Foundations of Cybersecurity - Coursera | Google Digital Marketing - Coursera | WordPress Development - DigiSkills.pk
